Team Assessment CV/DIP course

Michael Heath

August 2020

1 Introduction

Table 1: Team Assessment.

	Self-assessment	Kelle Clark	Elizabeth Chilcoat
attended meetings	5	5	5
communicated	5	5	5
participated	5	5	5
contributed	5	5	5
provided feedback	5	5	5
positive attitude	5	5	5

My team worked well together. We made the decision to code the assignment in Python because Elizabeth and Kelle had more experience in Python than in C++. I am still a beginner in Python, but I had little difficulty picking it up, and they were very helpful in resolving any issues I had. The team members were all supportive of each other and provided frequent updates.
